ABOUT ME

I have a clear, logical mind with a practical approach to problem-solving and a drive to see things through to completion. I have more than 4 years of experience in web development and leading a team. I am eager to learn, enjoy overcoming challenges and I have a genuine interest in web technologies.

EXPERIENCE

Tangent Technologies

Islamabad, Pakistan

Principal Software Engineer (Team Lead)

APR,2023 – Present

**Angular | NodeJs | Laravel (PHP) | MySQL .
(OpenCart & Wordpress)**

- Tangent Technologies is a Pakistan-based company with a global reach, renowned for its healthcare software solutions, especially the "**WOW Health**" product tailored to the U.S. healthcare sector. The company also demonstrates versatility by actively engaging in various domains, such as e-commerce and learning management systems.
- **Laasy Health**, another healthcare software solution, is a health-tech platform focused on providing accessible and affordable wellness solutions through digital tools. At Laasy Health, I contributed to the development and optimization of web-based applications aimed at streamlining health assessments, user engagement, and service delivery
- **ACA Solutions** to manage employer and employee census data and perform payroll tax analysis. The system includes a tax calculation engine that computes payroll taxes for each employer and integrates a wellness tax component to compare standard payroll costs with wellness-adjusted tax benefits. Implemented multiple reporting modules, including detailed payroll comparison reports

Trulysuccessive Ltd

Solihull, UK

Senior Software Engineer

JAN,2023 – MAR,2023

Vuejs | Laravel (PHP) | MySQL | GIT

- A UK Based Company where my duties are to code in client side scripting (Vue.js) and help them manage secure restful apis and suggest best possible solutions and analyze quality of application.
- Working on a product named MULTISH which is a SAAS and goal is to provide one solution for all businesses. For its client side scripting i code in Vue.js while server side they use (PHP) Laravel.

- Beside that working on different projects like Caredoodles, Nqhc and Agape4all etc

Buraq Technologies

Peshawar, Pakistan

Lead Software Engineer (Full Stack Web Developer)

MAR,2019 – DEC,2022

JQuery | Codeigniter (PHP) | MySQL+JSON FILES

JIRA | Confluence | BIT/GIT

- I work as a Senior Full Stack Developer in Buraq Technologies. I work on many products with them starting from Coaches Portal, 360 Housing, ERP and Hotel Management System to mega Reservation Software.
- In Buraq, working as Lead Programmer it improved my Project Management skills also and I work there on different projects while some mega products include **Reservation Software, Freemium Software, ERP, CRM, Point of Sale, Hotel Management System, Removals, Coaches Portal, Retail Management, Photography System** and most importantly all of them include Financial Accounting.
- Reservation Systems include Mini-Apps as modules, like Communication, Contacts, Reservation, Inventory, Maintenance, Accounting, Reports, CRM, Task Management, File Manager and most importantly it has its own Web Builder (CMS).
- Dealing with local client I developed a Hotel Management Software which was according to need of Pakistani hotel industry, which include Guest Panel, Room Reservation, Room Folio Management, Chart of Accounts and Vouchers like Payment Voucher, Receipt Voucher, Journal Voucher, Expense Voucher, Transfer Voucher etc. Also worked on Buraq ERP Sales, Purchase, Consumption, Stock, Customer Relation Management, Finance Vouchers, CMS and Reporting.

Trulysuccessive Ltd

Solihull, UK

Senior Software Engineer

JAN,2021 – OCT,2022

JQuery | Codeigniter (PHP) + Laravel | MySQL

FLUTER | DART | GIT

- A UK Based Company where my duties were to build & manage secure restful apis for their apps in Flutter and Database Management based on requirement, suggest best possible solutions and analyze quality of application.
- Beside working as Software Engineer, i also start working with them as mobile app developer by learning and working in flutter & dart.
- Gave them ideas about SAAS where they were able to manage different businesses of clients at one Platform with different instances and charge them subscription based.

Zsoft

Peshawar, Pakistan

Web Designer & Developer

FEB,2018 – FEB,2019

PHP | MySQL

- I worked as a Web Developer & Designer in ZSOFT. Beside working on my skill I learn some **Financial Accounting techniques** from them which is nowadays the need of every business management system.

- I developed a Web-App for them named “**ZBOOKS**” which includes *Double Entry Accounting*. You can manage **Chart of Accounts, Cash and Bank Vouchers, Journal Voucher** and view different reports like **Trial balance, Periodic Trial Balance, Income Statements, Balance Sheet**.
- I developed a **School Management System** for them. The uniqueness of that product was that it included Financial Accounting. You can manage a Chart of Accounts and see different Financial Reports. It includes all the basic principles of Financial Accounting. It includes *Student Admission Form, Staff Registration, Staff Salary Management, Vehicles Data, Fee Bill Voucher, Late fee System, Staff Salary Management* and much more.

EDUCATION

Agriculture University Peshawar

Peshawar, Pakistan

Bachelor of Information Technology

2015-2019

I studied Information technology from AUP. Besides studying from different institutes and working still I managed to pass my exam with A+ grade with a GPA of 3.57. My final Year project was about the Hotel Reservation System.

Logics Builder

Deans Trade Center Peshawar, Pakistan

Web Design & Development

DEC 2017-APR 2018

The practical skill I am having right now is the fruit of studying with passion for 5 months in logics builder. I learned web designing and development. Designing using **bootstrap** and Development in **PHP**. In these 5 months I developed different business solutions like **Patient Management System, Point of Sale** etc. Both the Patient Management System and Point of Sale have normalized MySQL DB to NF-3. In the end of the course I was awarded with a Certificate of being a Professional Web developer.

KPYEP

Islamia College Peshawar, Pakistan
